

## Faculty of Science - Readmission Application Form

### Student Information

Last Name:

YANG

Given Name(s):

Pu Justin

Preferred Name (if any)

Scarf

UBC Student Number:

76317098

Email Address:

pujustinyang@gmail.com

Last Year Level at UBC

3/4

If readmission is approved, state your preferred Specialization (e.g. Biology, Physics, Statistics, CMS)

MATH / CPSC

### Readmission Information

UBC Science requires some students to take coursework elsewhere. The guidelines were given to you when you were required to leave your studies. You may also find this information here: <http://www.calendar.ubc.ca/vancouver/index.cfm?tree=12,215,410,1460>

Were you required to take courses elsewhere during your time away from UBC?

Yes

☒ No

If yes, please submit transcripts as part of your application for readmission.

**Personal Statement:** Please describe the changes you have made to address the issues that caused you to fail in your coursework while a student in UBC Science. For instance, if financial or relationship issues contributed to your unsatisfactory academic standing, describe both the issues and what you have done to address them so they will not cause you to struggle if you are readmitted. Remember, the Readmission Committee is looking for evidence that the difficulties that hindered you are no longer an obstacle for you. Limit your statement to no more than 300 words.

I was not interested in my previous year's EOSC & Japn courses. I was communicating w/ Alan Bundy on meta-math, Noam Chomsky on linguistics, & Geoff Hinton on logic.

Supporting Documentation: You may submit letters from a treating health professional, family member, financial institution, employer or friend as appropriate. Are you submitting supporting documentation?

Yes, I am submitting supporting documentation

No, I am not submitting supporting documentation

too much document = 300+ emails

If you are submitting documentation, please list here. All supporting documentation, including this form, should be uploaded as part of your UBC application for readmission.

### Your Academic Plan

In this space, list all coursework you intend to take if your readmission is approved. Put an X or a check beside courses that are required for your intended specialization. Include credit values for each, and the term in which you intend to take the course. Do not forget to include any prerequisites you may need for upper-level courses.

2 more CPSC courses

Please confirm you have reviewed your courseplan with an advisor in your intended specialization. Counting completed credits and those in your course plan, confirm you believe you will meet degree completion requirements:

Yes, I have reviewed my course plan with a department advisor.

At least 120 total credits

At least 72 credits in the Faculty of Science

At least 48 upper-level credits

At least 30 upper-level credits in the Faculty of Science

Please provide the name and email address of the department advisor you have consulted:

---

For Faculty of Science Admin Use Only:

Department approval of  
admission into intended major?

Faculty of Science approval  
of readmission?
